

NEW HOMES AT CHURCH ROAD, IIVINGHOE

Welcome

Welcome to our virtual public consultation.

CALA Homes is currently preparing proposals to deliver approximately 75 new homes at land south of Church Road, Ivinghoe. The site represents an exciting opportunity to create an attractively designed small-scale development in a sustainable village location.

The plans will support housing delivery within the Buckinghamshire Council area, providing a range of housing types, including 19 affordable homes. The proposals will also involve the creation of new green infrastructure, improved landscaping throughout the site, and a natural children's play area, which will be publicly accessible to both existing and new residents, as well as new footpath links, providing enhanced connectivity from Ivinghoe Village to Pitstone Windmill, Ivinghoe Beacon, and the surrounding countryside.

CALA has an established reputation and has successfully delivered a number of high quality developments in the Buckinghamshire area. These projects include Aspen Park, Haddenham, Dolicott, Haddenham, Longhorn Farm, Aston Clinton, Twelve Leys, and Wingrave; the latter being in build at present.

We are keen to hear the thoughts and feedback of the community on our proposals, so please take the time to consider the information on display before providing your feedback via the online feedback page on this website. We appreciate your interest in the proposals for Church Road, Ivinghoe and hope that you find the exhibition informative.

If you have any questions or further comments, you can contact the project team by:
